

PROHACCP

X-RAY & METAL DETECTABLE PRODUCTS

PROVIDED BY

ABM
EQUIPMENT

About

PROHACCP was established in year 2006 and since the very beginning concentrates on supplying food industry with products which help to improve food safety.

Our main product line are metal and X-ray detectable products, which help food companies to reduce risk of food contamination with foreign body.

We do not limit ourselves to detectable products and we try to respond to market demand by development and sales of other products which help in process of food safety assurance.

When we develop new products we always try to listen to our customers' need and analyse in details not only publicly available food safety systems such as HACCP, BRC and IFS but also very detailed systems of individual companies like TFMS by Tesco or SQMS by McDonalds

During customer service we follow the rule that our most important customer is the one who is now being serviced right now. We always try to reply to our customers' needs as fast as possible so that our customers always know that in case he has difficult situation he always can count on PROHACCP.

Color Codes

When placing an order please add colour codes as follows:

(eg: P0405-2-3 = Detectable retractable pen STANDARD with clip -> blue body -> red ink)

1	XXXXX-1 = Vit White
2	XXXXX-2 = Blå Blue
3	XXXXX-3 = Röd Red
4	XXXXX-4 = Gul Yellow
5	XXXXX-5 = Grön Green

Our contribution to Food Safety

Metal & X-ray detectable products

One of the risk for food safety identified by HACCP is risk of physical contamination of produced food with foreign body.

To address this risk more and more companies invest in equipment detecting contamination such as metal detectors or X-ray machines.

This equipment is good for detecting metals (metal detector) or contamination of high density (X-ray), but on production areas there are many other materials used which cannot be detected neither by metal detectors nor X-ray machines.

To address this risk detectable versions of objects used on production areas have been developed. Its detectability is achieved by using special metal detectable plastic or by incorporating into object aluminium or metal parts.

Blue colour

Another solution to detect potential physical contamination is to use contrasting colour which normally does not occur in natural food products. As blue colour does not naturally occur in food products it is very often used to produce objects used in food industry. This contrasting colour enables visual detection of potential food contaminant.

Colour coding

Although blue colour is the most common colour used for production of object in food industry, sometimes it is necessary to use colour coding to attribute colours to functions, departments or products.

Thanks to colour coding it is possible to identify which department uses an object (eg. only QC uses red pens), divide cleaning equipment to different surfaces (eg. black brushes used for floor cleaning and blue brushes used for production line) or attribute colours to ingredients which cannot be mixed with other to avoid cross contamination (eg. special colours used for quiment dedicated for allergens)

Our contribution to Food Safety

Equipment personalisation

Attributing colours to different objects or functions is limited by number of clearly distinguishable colours.

However very often there is a need for further increase of food safety by attribution of equipment to small groups of employees or even individual employees.

This can be achieved by engraving or printing individual numbers to equipment and employees who are using it.

When it is written in register that product is attributed to an employee he will pay special attention to avoid losing an item.

If he loses it all the problems and consequent costs can be easily linked to individual employee.

Shadow boards and 5S

Another way to make sure that risk of contamination is reduced is keeping production area nice and tidy. A nice tool to keep everything in order are shadow boards, which visually present dedicated place for individual objects. When we can see that each object is stored on its place we are sure that it did not contaminate produced food. Another benefit of shadow boards and other 5S tools is elimination of time waste to search for tools and equipment.

BRC and other food safety systems

As BRC is one of the most detailed food safety systems (excluding detailed systems of individual companies) we decided to link our products to individual requirements of BRC.

Whenever we develop new products we also are trying to address specific BRC requirement. Sometimes BRC specifies exactly our products like blue detectable plasters or ban to use metal staples.

In other situations BRC only identify risk and our products are one of possible solutions.

In both cases we try to link our product to specific BRC requirements to help our customers to fulfill those requirements.

DETECTABLE WRITING ARTICLES

Detectable pen LIGHT / LIGHT PLUS

- economical solution for those for whom price is very important
- available without cap (LIGHT) or with cap (LIGHT PLUS)

Version	Code	*Body Colours	*Ink Colours
	P0379- ⁻¹¹ - ⁻¹¹	2 3 4 5	2 3 5 6
	P0389- ⁻¹¹ - ⁻¹¹	2	2 3 5 6

Detectable pen ONE

- one piece body - no possibility to dismantle into pieces
- design with square section to avoid rolling down on a sloped surface
- available with or without clip
- no possibility to replace refill

Version	Code	*Body Colours	*Ink Colours
	P0519- ⁻¹¹ - ⁻¹¹	2 3 4 5	2 3 5 6
	P0520- ⁻¹¹ - ⁻¹¹	2 3 4 5	2 3 5 6

Detectable pen STANDARD

- retractable nib
- replaceable refill of high capacity
- design with square section to avoid rolling down on a sloped surface
- available with or without clip
- number of parts reduced to minimum (3pcs)

Version	Code	*Body Colours	*Ink Colours
	P0405- ⁻¹¹ - ⁻¹¹	2 3 4 5	2 3 5 6
	P0406- ⁻¹¹ - ⁻¹¹	2 3 4 5	2 3 5 6

Detectable pen HEAVY (for difficult conditions)

- all the benefits of pen STANDARD
- replaceable refill under pressure enabling writing in difficult conditions: high/low temperatures, high humidity, greasy surfaces

Version	Code	*Body Colours	*Ink Colours
	P0577- ⁻¹¹ - ⁻¹¹	2	2 6

Detectable metal pens

- durable metal body
- replaceable refill of high capacity
- available in 4 versions

Version	Code	*Body Colours	*Ink Colours
	P1779-S- ⁻¹¹	s	2 6
	P1780-S- ⁻¹¹	s	2 6
	P2183-S- ⁻¹¹	s	2 6
	P2334-S- ⁻¹¹	s	2 6

Detectable PDA stylus

- one piece body - no possibility to dismantle into pieces
- design with square section to avoid rolling down on a sloped surface
- suitable for resistive screens

Code	*Body Colours
P1781- ⁻¹¹	2

Detectable permanent marker

- available with bullet and chisel nib
- suitable for writing on most surfaces
- possibility of wiping only with solvent

Version	Code	*Body Colours	*Ink Colours
	P0353- ⁻¹ - ⁻¹	2	2 3 5 6
	P1784- ⁻¹ - ⁻¹	2	2 3 5 6

Detectable whiteboard marker

- available with bullet and chisel nib
- suitable for writing on whiteboards and for temporary markings

Version	Code	*Body Colours	*Ink Colours
	P0372- ⁻¹ - ⁻¹	2	2 3 5 6
	P1788- ⁻¹ - ⁻¹	2	2 3 5 6

Detectable whiteboard marker MINI

- smaller version of standard whiteboard marker

Code	*Body Colours	*Ink Colours
P0371- ⁻¹ - ⁻¹	2	6

Detectable fineliner

- permanent ink suitable for writing on most surfaces

Version	Code	*Body Colours	*Ink Colours
Fineliner	P0377- ⁻¹ - ⁻¹	2	2 3 5 6

Detectable highlighter

- chisel nib
- vivid ink colours for visible text marking

Version	Code	*Body Colours	*Ink Colours
Highlighter	P0556- ⁻¹ - ⁻¹	2	2 4 5 7 9

Detectable marker-fineliner TWIN

- two writing nibs of different width
- permanent ink suitable for writing on most surfaces

Version	Code	*Body Colours	*Ink Colours
Twin	P0554- ⁻¹ - ⁻¹	2	2 6

DETECTABLE WRITING ARTICLES

Detectable food marker

- ink approved for writing on food
- bullet nib

Code *Body Colours *Ink Colours
 P3003-11-11 2 12

Detectable UV marker

- ink visible only under UV light
- bullet nib

Code *Body Colours
 P3004-11 2

OTHER DETECTABLE STATIONERY

Product personalisation

- printing or engraving individual number on item together and registering who uses this item enables attribution of responsibility to individual employees
- employees with attributed responsibility will pay special attention not to lose this item, so they will reduce risk of food contamination
- possibility of printing or engraving: company name, department name or production line name

Detectable lanyard

P2067

P0648

P0648- 7,5 x 9,5 cm 2
 P2067- 50,0 x 1,0 cm 2

Detectable glasses lanyard

P2257- 50,0 x 1,0 cm 2

Retractable metal lanyard

P2066- ø 4cm S

Detectable magnets for whiteboards

P0392- ø 3cm 2 3 4 5

Detectable rulers

stainless steel rulers page.23

P1776- 20 cm 2
 P1774- 30 cm 2

Sample P2824

Stapler for paper staples

- staples up to 16 sheets of paper
- meets BRC 4.9.2.2 requirement regarding prohibition of use metal staples and binders
- permanently staples sheets of paper and enables easy unstapling without using additional tools
- saves space in binder compared to metal staples
- save for document shredders

P2823-					
P2824-	900 pcs			1	2

DETECTABLE LABELS AND TAGS

Stapleless stapler

• staples up to 4 sheets of paper

P0092-

DETECTABLE MIRRORS

Detectable non-breaking mirrors

- made of non-breaking polycarbonate
- includes tester to check detectability
- possibility of printing on mirror
- no frame = no obsolete small parts
- blue mirror back enabling visual detection
- to be used in all places where glass mirrors are prohibited
- in cloakroom to check correctness of wearing PPE
- near production line to observe parts difficult to access
- at the crossroads to avoid accidents

PI328- 600 x 400 mm

DETECTABLE SIGNS

Detectable signs and instructions

- made of stainless steel or detectable paper
- wide range of ready signs and instructions and possibility of individual design
- wide range of signs, boards, markings and other products

P2991- A4 Detectable Paper
P2992- Stainless Steel

Detectable Paper

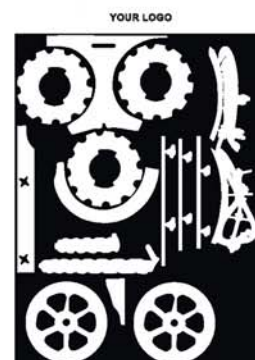

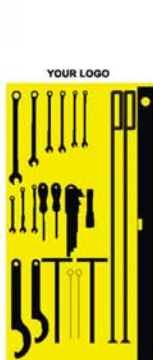

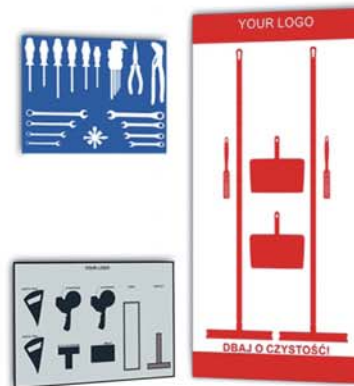

P2990- A4 1

Shadow boards

- for FBK products - free project of shadowboards
- dimensions customized for client needs
- possibility place company logo and title
- shadowboards available on PCV and Dibond
- possibility design for any tools

P2174-

max. | 200x2000 mm

DETECTABLE PLASTERS

Metal detectable blue plasters Mix of 3 sizes

	P0158	P0160	P0344	P2265
				
P0158-	7,2 x 1,9 cm (100 pcs.)			2
P0160-	7,2 x 2,5 cm (100 pcs.)			2
P0344-	7,2 x 5,0 cm (50 pcs.)			2
P2265-	Mix 7,2x1,9 + 7,2x2,5 + 7,2x5,0 (100 pcs.)			2

Metal detectable blue plasters

	
P0156-	12,0x2,0cm (100 pcs.) 2

X-Ray detectable plasters

	
P0395-	7,2 x 2,5 cm (100 pcs.) 2

Metal detectable plasters for earrings

	
P2104-	0,9 x 3,8 cm (100 pcs.) 2

Metal detectable blue plasters Premium

	
P0387-	7,2 x 2,5 cm (100 pcs.) 2

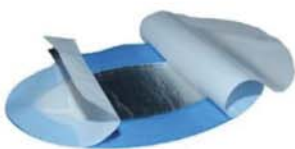

Blue bobbies (non-detectable)

	
P0388-	gumový Gummi gumový 2
P0489-	material Textil textilní 2

Blue plaster on spool (non-detectable)

	
P0165	2,5 cm x 5 m 2

Detectable gel plaster for wounds

	
P0488-	11,0x6,7 cm 2

Blue self-supporting bandage (non-detectable)

- stays permanently on body without using glue
- can be used both to cover bleeding wound as well as to keep it in place
- extremely flexible and suitable to cover wounds on joints or fingers

P2951-	3,0 cm x 5 m 2
--------	----------------

Metal detectable plasters on roll (cut as much you need)

	
P2257-	8 cm x 5,0 m 2

Blue bandage (non-detectable)

	
P2952	6 cm x 4 m 2

DETECTABLE DISPOSABLE CLOTHES

Detectable hair nets
Detekterbart Hårnät

P0536- (100 pcs.) 2

Detectable mob caps
Detekterbar Hårskydd

P0135- (100 pcs.) 1 2 3 4 5

Detectable beard covers

P0142- (100 pcs.) 2

Detectable beard nets

P0141- (36 pcs.) 2

Detectable sleeve covers

P0140- (100 pcs.) 2

Detectable sleeve covers

P2950- (100 pcs.) 2

Detectable visitor sets

P2950-

- includes blue detectable mob cap, white velcro lab coat and pair of detectable shoe covers

DETECTABLE EAR PLUGS DETEKTERBARA ÖRONPROPPAR

Detectable disposable ear plugs

- ear plug made of PU foam which adopt to ear shape
- detectable due to metal ball inside ear plug
- cord also detectable

P0647- SNR 36dB 2

Detectable disposable ear plugs detectable cord

P1777- SNR 37 2

Detectable reusable ear plugs

- ear plug made of silicone which adopt to ear shape
- detectable due to metal ball inside ear plug

P1778- SNR 29dB 2

Detectable reusable ear plugs (improved detectability)

- ear plug made of PU foam which adopt to ear shape
- detectable due to metal ball inside ear plug

P0491- 200x4,5mm (100 pcs.)	2	P0493- 380x4,5mm (100 pcs.)	2

Detectable quick ties

- bags closures
- cables fixing
- tags fixing
- temporary repairs

P0453- 120mm (100 pcs.)	2	P0492- 240mm (100 pcs.)	2
P0454- 180mm (100 pcs.)	2	P0493- 320mm (100 pcs.)	2

Detectable bucket

- Large 15 Ltr. capacity with 1.5 Ltr. extra to rim
- Clear graduations moulded into bucket in Litres, UK Gallons and US Gallons
- Close fitting lid available in same colours saves product spills when carrying and keeps ingredients safe while storing
- Designed to be stacked inside each other
- Self-draining base when inverted avoids stale water trap
- Bucket height 32 cm

P0481	15 L	2	3	4	5
P0482		2	3	4	5

Detectable E2 box

- dimensions in accordance with Euro 2 standard 40x60x20mm
- box weight >2kg - it should not be used for settlements of transaction between companies
- recommended to be used within factory

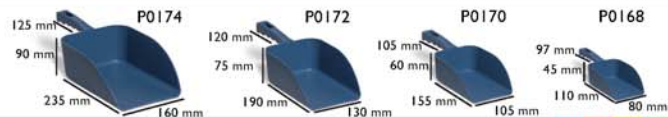

P1000-	600 x 400 x 200 mm	2
--------	--------------------	---

Detectable dustpan

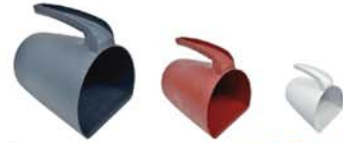

P0480-	300 x 310 mm	2	3	4	5

P0499-	330 x 380 x 1330 mm	2	3		

BRUSHES WITH DETECTABLE FILAMENT

Brushes with detectable filament

- standard filament width 0.6mm
- available filament width 0.35mm
- For special order we are able to produce many other brushes with detectable filament (minimum order quantity and long lead time may apply)
- non standard filament width or length
- non standard brush body colour (up to 10 colours available)
- non standard brush body shape (up to XX shapes available)
- fully custom made technical brushes

P0470-	340 x 35 mm	Polyester PBT 0.60	160	1	2	3	4	5	7
P0471-	275 x 70 mm	Polyester PBT 0.60	150		2				
P0472-	410 x 55 mm	Polyester PBT 0.60	160		2				
P0473-	210 x 70 mm	Polyester PBT 0.60	140		2				
P0474-	300 x 20 mm	Polyester PBT 0.60	160		2				
P1834-	400 x 50 mm	Polyester PBT 0.60	155		2				
P1835-	280 x 48 mm	Polyester PBT 0.60	170	1	2	3	4	5	7

DETECTABLE STIRRERS AND PADDLES

Detectable paddles

P2741-	125 x 290 x 1760 mm	1	2	3	4	5
P2742-	125 x 290 x 1190 mm	1	2	3	4	5
P2743-	125 x 290 x 1190 mm	1	2	3	4	5
P2744-	125 x 290 x 540 mm	1	2	3	4	5

Detectable stirrer

P0177-	420 mm	1	2	3	4	5
--------	--------	---	---	---	---	---

SHADOW BOARDS

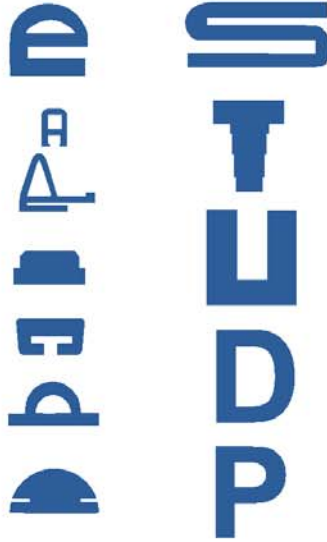

Shadow boards

P2174-	max. 1200x2000 mm
--------	-------------------

Silicone rubber seals and gaskets

- Almost 1000 ready to produce shapes available.
- Custom made shapes (tool cost should be added)

Detectable silicone rubber O-rings

Available over 100 size

P0609-

2

Detectable silicone rubber sheets

Detectable Engineering Plastic

P0500-	1 m x 2m x 1,00mm	2
P0366-	1 m x 2m x 1,5mm	2
P0501-	1 m x 2m x 2,00mm	2
P0214-	1 m x 2m x 3,00mm	2
P0502-	1 m x 2m x 4,00mm	2
P0503-	1 m x 2m x 5,00mm	2
P0504-	1 m x 2m x 6,00mm	2

Detectable Vacuum Suction Cups

- Designed for carrying goods, such as pastries, lighter and seeded goods. The soft, flexible rim gives an excellent seal on uneven surfaces.

TESTERS FOR METAL DETECTORS AND X-RAYS

Metal detector test pieces

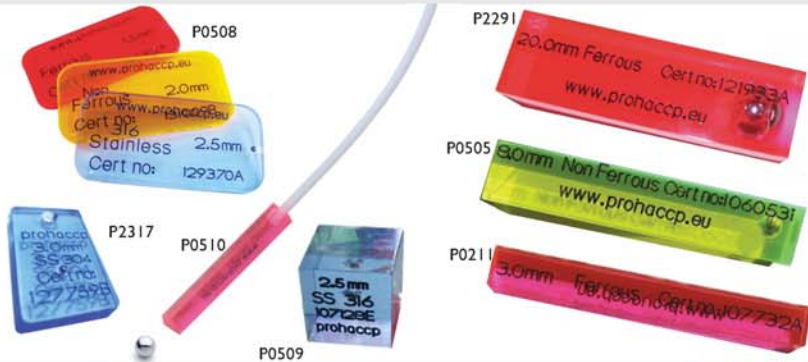

- Test pieces are perfect tool to control that inspection equipment such as Metal detectors or X-rays work correctly. All our tester come with certificate proving type and size of contaminant.

P0382-	Laminated Card 108 x 64mm	∅ < 2,5mm	Fe NonFESS316
P1955-	X-ray Card 95 x 40mm	∅ < 8mm	Fe NonFESS316
P1956-	X-ray Card 95 x 40mm	∅ < 8mm	Fe NonFESS316
P1953-	X-Ray Tester	x 5	Fe NonFESS316
P1954-	X-Ray Tester	x 5	Fe NonFESS316

X-RAY Test pieces

- Test pieces are perfect tool to control that inspection equipment such as Metal detectors or X-rays work correctly. All our tester come with certificate proving type and size of contaminant.

P0211-	Stick 100 x 12 x 10mm	∅ < 7,5mm	Fe NonFESS316
P0505-	Stick 100 x 20 x 20mm	∅ < 14mm	Fe NonFESS316
P2291-	Stick 100 x 30 x 30mm	∅ < 28mm	Fe NonFESS316
